Dear Drivers of Miss Sue's Little Lambs:

In order to create a respectful, safe street for all residents and children living on Sailsbury Drive and for those children who use our street to walk to and from school, we have created some guidelines for all drivers to follow immediately:

- Please respect the speed limit of 25 miles per hour to ensure safety.
- Be considerate of ALL neighborhood lawns. **Running over the lawns damages property.** Park as if you were pulling in front of your own house!
- Look both ways before you cross the street. We have a blind curve and there are too many close calls.
- Use Sailsbury Drive as a one way street. For example, Kensington Dr. is at both ends of Sailsbury. When you come up or down the street, please continue in the same direction. It goes all the way through and is much safer for all concerned. If you must turn around, use my driveway ONLY.

Having two sessions a day at Miss Sue's Little Lambs creates a significant amount of traffic and parking in conjunction with families on their way to and from Lake Forest School. My neighbors are very understanding. However, there have been some conflicts due to property damage and drivers not owning up to their mistakes. I cannot emphasize the importance of following these guidelines. It is your responsibility to make sure anyone who picks up or drops off your child at school is aware of these guidelines.

Here at Miss Sue's Little Lambs, we are trying to build self-reliant, respectful children. We encourage you to set a good example and take responsibility for your actions, even if it is accidental. If there are any more incidents, the Residents of Sailsbury Drive will need to take further action.

Thank you for your attention, prompt response and consideration,

Sue Muniz and Residents of Sailsbury Drive
